THE JOSIAH K. LILLY COLLECTION

Part V

U. S. Proofs, Encased Postage Stamps, Fractional Currency, Carriers, Locals and U. S. Sheets

This is probably one of the most unusual and colorful portions of the vast Lilly Collection. The proofs, particularly the remarkable 19th Century issues in complete sheets, are magnificent. These, plus the really rare 20th Century Die Proofs, will arouse considerable interest among the growing number of enthusiastic collectors who admire their beauty and brilliance.

The other groups in this sale, the Encased Postage Stamps, Fractional Currency, Carriers and Locals, and the postage and air issues in complete sheets, provide a prime opportunity to acquire varieties, many of which are the only known copies, or of such rarity that years may pass before another will appear on the market.

The sale opens with a comprehensive collection of proofs, Die and Plate, plus some essays and trial colors. Included are over 70 lots of Die Proofs of 20th Century issues, a most remarkable group, since most of these are one of the three or four copies known. Following these are the complete sheets of proofs on India and cardboard. These sheets represent a major part of the late Congressman Ackerman's collection and have a catalogue value of over \$250,000! Such fabulous items as the 1869 pictorial issue, the various Banknote issues and the Columbian issues, are breathtaking to see in complete sheets. It is no wonder that collectors have been attracted to this field.

The second session offers the "Encased Postage Stamps," the result of shortages of coins during the Civil War, which had a short-lived existence, since they were replaced by the Fractional Currency which is also offered here. Of the "Encased Postage Stamps," the 170 odd lots include almost every known variety and the only known 2c Black Jack variety, in addition to the rare 12c to 90c values. The Fractional Currency, which includes the Postage Currency carrying stamp designs, are almost complete, with some great rarities and "Specimen" varieties as well as unlisted items.

The romance of our country's postal history comes to the fore in the third session when we offer what is undoubtedly one of the finest collections of Carriers and Locals. Here the ever growing number of collectors of these primitive issues will find stamps and covers that will create great excitement, since many of these have rarely appeared over the years. Among the great Carrier rarities are the Martin's City Post 2c black (Sc. 4LB16), a complete pane of 42 of the 3c City Dispatch Post (6LB6), a block of 12 of the 3c black on blue (6LB5), the Philadelphia 1c black on rose (7LB5) on cover with a 5c 1847, and a 1c yellow (7LB9) on cover. The Locals feature such magnificent covers as the Berford Express 10c with two pairs, one the tete-beche (11L3a, b), City Express Post 2c red (44L3), Cumming's City Express 2c (55L5), 8th Ave. P. O. (63L1), Sullivan's Dispatch Post (135L1) plus dozens of stamps of first rank scarcity.

The fourth and final session contains only 68 lots, but what lots! Full sheets of the Columbians from the 1c to the \$1, the 5c 1902 imperforate in a complete sheet of 400, probably the only one in existence, the sheet of 400 of the 1928 2c Type II (634a) with a Catalogue Value in excess of \$28,000, and the probably unique sheet of the 5c Parks (744a) imperforate vertically. In addition there are the 1918 airs as well as a set of the Graf Zeppelins in sheets. The total realization for these sheets will in all likelihood be many times the few thousands of dollars of face value represented.

If we may be permitted an observation, most of the items offered in this sale have proven to be of increasing popularity, despite the fact that Catalogue Values of much of this material have scarcely been altered over two decades. Prices have been far in advance of the catalogue for some time now and we believe that future listings will reflect in some measure the prices attained in this sale.

CONDITIONS OF SALE

1. The terms of sale are strictly cash to the highest bidder. All buyers are expected to pay for lots within three days of receipt, unless special arrangements have been made prior to the sale.

SECOND SESSION

WEDNESDAY, SEPTEMBER 13th, 1967 — 7:45 P. M.

ENCASED POSTAGE STAMPS

We are proud to present herewith one of the finest collections of these interesting and elusive issues which has ever been formed, comprising a very nearly complete selection of the known issues and including a number of unique pieces, as well as many of which only a few examples are known.

These consist of Postage Stamps of the 1861 Issues with corners folded under, covered with mica, and the whole encased in a circular brass case, the reverse side bearing an embossed advertisement. They were issued to alleviate the shortage of small change during the Civil War.

Mica is a naturally occurring mineral built up of thin transparent layers, with a tendency to separate on exposure over long periods of time.

Condition stated on the following lots refers to both stamp & casing and, unless otherwise stated, it can be assumed that the mica is substantially intact and transparent, though negligible minor separation may occur on some.

Originally the cases were silver plated but, as this has invariably worn away to some extent, the amount of plating that remains has not been considered in the grading.

Catalog Numbers & Values are those of Friedbergs' "Paper Money of the United States" 5th Edition, 1964. On most items, the Catalog Values in the 1967 Scott Specialized will be slightly higher.

This offers a marvelous opportunity for those who are already collecting these issues as well as a fascinating new field for expansion for the Collector of 19th Century United States.

U. S. FRACTIONAL CURRENCY

We are Proud to Present Herewith a Nearly Complete Collection of this interesting group issued during the Civil War to alleviate a shortage of small change.

This outstanding Collection not only contains nearly all the rare catalogued items, but many unlisted ones as well, Including the largest Known Multiple of Postage Currency with Inverted back.

The Condition throughout is unusually choice, with most items being in crisp uncirculated condition. Although Friedberg states that as the early notes were customarily folded when put away, or were pinned together and that such minor blemishes do not keep a Note from being considered uncirculated, we have been careful to point out these trivial faults where they occur.

Catalog Numbers & Values are those of Friedbergs' "Paper Money of the United States" 5th Edition, 1964.

ESTIMATES

Our sales contain many 19th Century covers and fancy cancellations. We have had many requests to give the estimated cash value on these lots. We are trying to place a fair net valuation on each lot as a guide for bidding when no catalogue value portrays the true value. The chart below will be used, for example E. IV means our estimate cash value on this lot is \$30.00 to \$40.00. Lots may actually realize more or less than these estimates and under no circumstances are these estimates to be considered reserves but merely a guide to bidding.

E. I	up to \$10.00	E. VIII	\$100.00 to \$150.00
