## Conditions of Sale

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. ("Galleries") on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term "final bid" means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid ("buyer's premium"), together with any sales tax or use tax which may be due on the sale.

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries' record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum final bid ("reserve"), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve.** In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as "passed" and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with "faults" or "defects" may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. **The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale

will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. **Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is The Philatelic Foundation), dated within the past five years of the sale date, is sold "as is" and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale.** Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer's behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be "not as described", the buyer will be refunded the purchase price and the certification fee up to \$100.00 unless otherwise agreed.

9. Title to the property sold in this auction shall pass to the buyer after all of the buyer's payment obligations have been met and conditional sales (as defined in Condition 8) are determined to be final. Until such time, title shall belong to the Galleries (on its own behalf or on behalf of the seller), regardless of the location of the property.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs (see back of Bid Form).

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

# Grading Terms, Abbreviations and Values Used in Descriptions

## Centering and Gum

Margin width, centering and gum are graded according to Scott Catalogue standards.

**Extremely Fine (EF):** Exceptionally large margins or near perfect centering. The term "Gem" describes condition that is the finest possible for the issue.

**Very Fine (VF):** Normal size margins for the issue and well-centered with the design a bit closer to one side.

**Fine (F):** Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

**Very Good (VG):** Attractive appearance, but margins or perforations cut into the design.

**Good (G) or Average (Ave.):** Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

Gum Categories:	MINT N.H.	ORIGINAL GUM (O.G.)				NO GUM
	 <b>Mint Never Hinged</b> <i>Free from any disturbance</i>	 <b>Lightly Hinged</b> <i>Faint impression of a removed hinge over a small area</i>	 <b>Hinge Mark or Remnant</b> <i>Prominent hinged spot with part or all of the hinge remaining</i>	 <b>Part o.g.</b> <i>Approximately half or more of the gum intact</i>	 <b>Small part o.g.</b> <i>Approximately less than half of the gum intact</i>	 <b>No gum</b> <i>Only if issued with gum</i>

The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some

## Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

## Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an "E." and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

2077

**1c Blue, Ty. I (5).** Position 7R1E, full even margins showing the complete design, top ornaments just barely touched, rich color in bright early shade, unusual impression with slight doubling caused by slippage, large "Paid" grid of Boston

VERY FINE. ONLY POSITION 7R1E — THE SEVENTH STAMP IN THE RIGHT PANE OF PLATE 1 EARLY — FURNISHED IMPERFORATE 1851 ONE-CENT STAMPS SHOWING THE COMPLETE DESIGN (TYPE I). VERY FEW OF THE 80 CONFIRMED EXAMPLES OF THIS STAMP HAVE MARGINS CLEAR OF THE DESIGN ON ALL SIDES. A MAGNIFICENT EXAMPLE OF ONE OF THE RAREST AND MOST DESIRABLE CLASSIC UNITED STATES STAMPS.

The census compiled by Mal Brown contains at least 80 unduplicated records of Scott 5. There are probably no more than ten examples existing outside of the Brown census population. Therefore, the 1c 1851 Type I is the rarest of all United States stamps issued regularly prior to the 1868 Grills.

Because of the significance attached to the outer portions of the 1c 1851 design, rare types that have been carefully cut apart, so as not to impinge on any part of the design, are extremely desirable. The narrow spacing between stamps in the sheet and the users' indifference to the outlying ornamentation during separation are factors that contributed to the great rarity of four-margin examples. Among the recorded imperforate Type I stamps (Scott 5), a small fraction of the copies on or off cover have four margins — even fewer of these are sound.

VERY FINE APPEARANCE. ONLY SIX POSITIONS FROM PLATE 1 EARLY FURNISHED TYPE Ib STAMPS.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early furnished stamps qualifying as Type Ib — Positions 3-6R and 8-9R — distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away. These top-row positions usually have an ample top margin, but frequently the margins are close or cutting into the sides or bottom. ....4,600.00

EXTREMELY FINE. AN EXCEEDINGLY RARE IMPERFORATE PAIR COMBINING TYPES III AND Ic, WHICH EXISTS ONLY IN TWO PLACES ON THE PLATE.

Type Ic occurs on only ten of the 200 positions from Plate 4 and does not occur on any other plate. Two of these ten are "swing positions" (41R4 and 49R4), which developed gaps at either top or bottom as the plate wore during use, becoming Type IIIa. Position 82L4 also transformed from a Type IIIa to Type III as the plate was used, when a break in the bottom line developed. In the pair offered here, we have the combination of Type III (breaks at top and bottom) and Type Ic. As is well known, most stamps printed from Plate 4 were issued with perforations. Imperforate stamps from Plate 4 are much rarer. The imperforate Type III-Ic combination pair offered here comes from the tiny fraction of production after Position 82L4 changed to Type III and before perforations were introduced in July 1857.

VERY FINE TO EXTREMELY FINE. AN EXCEEDINGLY RARE UNUSED VERTICAL PAIR OF THE PERFORATED 1-CENT 1857 TYPES Ic AND Ia.

The Type Ia stamps were produced from 18 positions in the bottom row of Plate 4. The most distinctive feature of Plate 4 is that the top row was entered with the designs complete at top (Type II), and the bottom row was entered with designs complete or nearly complete at bottom (Types Ia and Ic). There are ten positions on the plate that are Type Ic. Although the plate layout allowed sufficient space for perforations, the height of the top-row and bottom-row designs was larger than others in the sheet, which resulted in perforations cutting into either the top or bottom rows, depending on which direction the sheet was fed into the perforator. Type Ia and Ic stamps from the bottom row are almost always cut into at bottom, an unfortunate situation for collectors because the bottom part of the design is what makes Type Ia and Ic stamps desirable.

The unused pair offered here, with sheet margin at bottom containing enough unpunched perforations to show the full design, is a truly remarkable example of Type Ia.

- 2263 ☒ **1c Blue, Ty. I-Ib-Ib (5-5A-5A).** Position 7-9R1E, horizontal strip of three, Type I has large margins except just slightly in at lower left, others have mostly full margins except at bottom right, tied by bold strikes of "New-York May 19" circular datestamps on blue 1852 folded letter to Belvidere N.J., all stamps affected by horizontal pre-use crease at bottom, two short intersecting tears in Positions 7 (Type I) and 9, the faults were there when the strip was affixed and do not detract significantly from the overall appearance

FINE APPEARANCE. ONE OF ONLY EIGHT STRIPS OF THREE ON COVER RECORDED IN THE MAL BROWN CENSUS OF THE IMPERFORATE 1-CENT 1851 TYPE I STAMP. ONLY POSITION 7R1E—THE SEVENTH STAMP IN THE RIGHT PANE OF PLATE 1 EARLY—FURNISHED IMPERFORATE 1851 ONE-CENT STAMPS SHOWING THE COMPLETE DESIGN (TYPE I). ONE OF THE RAREST AND MOST DESIRABLE CLASSIC UNITED STATES STAMPS.

The census compiled by Mal Brown contains at least 80 unduplicated records of Scott 5. Of these, there are only 23 covers in total recorded. There are probably no more than ten additional stamps existing outside of the Brown census population. Therefore, the 1c 1851 Type I is the rarest of all United States stamps issued regularly prior to the 1868 Grills.

AN OUTSTANDING PAIR OF TYPE Ib. THE RIGHT STAMP IS AN EXTREMELY FINE GEM.

The left stamp, Position 3R1E, shows a clear triple transfer in the ornamentation at top left. Neinken calls this position "an exceedingly interesting study in double transfers." (p. 60).....(Photo) 9,500.00

- 2266 **1c Blue, Ty. Ia (6).** Position 95L4, enormous margins all around incl. sheet margin at bottom and part of adjacent stamp at left, cancelled by rim of town datestamp, deep rich color on bright paper

EXTREMELY FINE GEM. AN OUTSTANDING EXAMPLE OF THE RARE IMPERFORATE TYPE Ia STAMP IN THE FINEST ATTAINABLE CONDITION.

Stamps printed from Plate 4 were issued in April, May and briefly in June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate (Ia, Ic, II, III and IIIa). The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).

Airy Va., circular datelined "Baltimore, July 1st, 1851"

VERY FINE. A RARE JULY 1, 1851, CIRCULAR. DATED ON THE FIRST DAY OF THE 1851 ISSUE.

With 1982 P.F. certificate, which states that it is a genuine opinion but declines opinion as to being a first day usage. Receipt docketing on inside fold of "Lanier, Gittings & Childs, 1 July 1851" is based on the printed dateline. There is no means to establish the exact day of mailing, which is necessary to elevate this rare item to First Day Cover status. Nonetheless, only a few July 1st usages of the 1c 1851 are recorded, and this is an exhibitable alternative. ....(Photo) E. 4,000-5,000

EXTREMELY FINE GEM. A SUPERB AND EXTREMELY RARE UNUSED EXAMPLE OF TYPE IIIa IMPERFORATE 1-CENT 1851 ISSUE WITH IMPRINT.

The Neinken book states "Stamps from Plate 4 showing part of the imprint are very rare. Ashbrook states that he has never seen an imperforate vertical pair with the imprint. . ." (p. 277). A Type IIIa with part imprint and original gum from our recent sale of the Lewis Golin collection realized \$23,000. EXTREMELY FINE GEM. ONE OF THE WIDEST AND FINEST-CENTERED 5-CENT TYPE II BROWN STAMPS WE HAVE EVER ENCOUNTERED. AN EXTRAORDINARY EXAMPLE OF THIS DIFFICULT EARLY PERFORATED ISSUE.

Unlike its Orange Brown counterpart (Scott 30), which remained in Southern post offices when the issue was demonetized at the outbreak of the Civil War, the Brown Type II (Scott 30A) was issued earlier and mostly used up by 1861. This historical circumstance, combined with the difficulty Toppan, Carpenter experienced with perforating, make Scott 30A an exceedingly elusive stamp in well-centered, original-gum condition. Its rarity is often underestimated by discriminating collectors, until years pass by and they realize the album space is still empty.

EXTREMELY FINE GEM. AN EXCEEDINGLY RARE WELL-CENTERED ORIGINAL-GUM 24-CENT RED LILAC. PROBABLY ONE OF THE FINEST COPIES EXTANT. A SUPERB STAMP IN EVERY RESPECT.

With a growing awareness by collectors that 1861 Issues (5c and up) are exceedingly scarce in well-centered, original-gum condition, we would expect this stamp to draw keen competition. Although one finds the 24c unused without gum in this grade, original-gum examples are often poorly centered or faulty. Only on rare occasions has our firm offered a 24c Red Lilac of this quality.

EXTREMELY FINE FOR A 24-CENT 1861 SHADE RARELY ENCOUNTERED WITH ORIGINAL GUM. A MUST-HAVE STAMP FOR THE COLLECTOR ASSEMBLING A RANGE OF THE 1861 COLORS.

As noted in several of the descriptions of original-gum 1861's in this sale, these stamps are available in unused no-gum condition or low grades of original-gum condition; however, the combination of original gum and choice centering is so rare that Scott values can be very misleading. In the case of this 24c, the unusually-deep Brown Lilac shade adds another dimension of rarity — perhaps comparable to the difference between a 5c Red Brown (75) and 5c Brown (76). To appreciate this color difference, please compare this stamp with the Brown Lilac offered in the following lot.

EXTREMELY FINE GEM. THIS IS ONE OF THE FIVE FINEST RECORDED EXAMPLES AMONG THE HANDFUL OF ORIGINAL-GUM COPIES OF THE 2-CENT Z GRILL IN OUR RECORDS. A PHENOMENAL STAMP.

To form our assessment of this 2c Z Grill, we conducted a survey of approximately 100 auction catalogues for major United States collections sold over the past 60 years. The majority of these collections contained only used or very poor unused examples of 85B. We noted the following: our 1975 Grunin sale had a well-centered 85B with nearly full o.g. and small faults; remarkably, Caspary and Lilly had a few singles and multiples with o.g., but all of these had perfs cutting far into the design; the ex-Connoisseur and ex-Vernon Morris 85B is similarly well centered with o.g.; Clifford C. Cole had a well-centered single with slightly disturbed o.g.; our 1970 Rarities sale had an o.g. block with the top pair creased, but the bottom pair was well-centered (probably still intact as a block); our 1971 Rarities sale had an off-center o.g. pair; our 1981 Rarities sale had a right sheet-margin copy with o.g. and choice centering; the Rorke specialized Black Jack collection had a superb 85B, but without gum; and, finally, our recent sale of the Golin collection had another superb no-gum copy. In general, many accomplished collectors, such as Sheriff, Klein and Seymour, evidently were unable to acquire a well-centered, original-gum 2c Z Grill.

In our 1999 Rarities sale, we sold an original-gum 2c E Grill (87) — another grilled stamp rarely seen centered with original gum — for \$8,500 versus a Scott value of \$850.00, which may be a guide to the multiple of catalogue value commanded by such stamps today.

2417 **2c Black, Z. Grill (85B).** Perfectly centered with unheard-of massive margins for this stamp, full and clearly-defined grill showing all of the points, lightly cancelled by cork

EXTREMELY FINE GEM. PROBABLY THE FINEST EXISTING USED EXAMPLE OF THE 1868 2-CENT Z GRILL. AN OUTSTANDING STAMP IN EVERY RESPECT.

If one were to view this as an ungrilled 2c Black Jack, it would merit the highest rank among used examples. The plates used to print these stamps did not provide enough space between subjects for the large 12-gauge perf holes. Consequently, most Black Jack stamps have perfs touching the design on one or two sides. This scarcity of centered copies multiplies exponentially when the Z Grill is factored into the equation. Only a small quantity of 2c sheets were grilled during the period when the Z device was active — after the D Grill, the Z is the rarest of Black Jack grilled stamps — and discriminating collectors are well aware of the rarity of well-centered examples of 85B. This stamp is perfectly centered and has margin width that goes far beyond the standard of the issue.

- 2421 ★ **1c Blue, E. Grill (86).** Original gum, lightly hinged, gorgeous deep blue color and proof-like impression on bright white paper, bold grill points, bright and fresh

EXTREMELY FINE GEM. EASILY ONE OF THE FINEST, IF NOT THE FINEST, 1-CENT E GRILL IN EXISTENCE. A PHENOMENAL STAMP, PARTICULARLY WITH ORIGINAL GUM.

Some time ago we observed that the 1c E Grill appeared at auction very infrequently, in any form. After analyzing the early 1868 regular-production grills (Z, D, E and F), we concluded that grilling of 1c with the E (and Z) Grill must have been short-lived, occurring sometime around February 28, 1868. Later grilling of 1c stamps was probably done with the F Grill. Of the 1c E Grill supply, relatively little appears to have reached the philatelic market, as evidenced by the stamp's scarcity.

EXTREMELY FINE EXCEPT FOR SINGLE SHORT PERF. ONE OF THE MOST DIFFICULT GRILLED ISSUES TO FIND WELL CENTERED WITH ORIGINAL GUM.

Our recent search of numerous major name sales containing 1867-68 grilled issues (Caspary, Lilly, Grunin, etc.) yielded only a couple that compare favorably, and we were quite surprised that several collections lacked even an average copy with gum. ....

EXTREMELY FINE AND CHOICE. A VERY RARE EXAMPLE OF THE THIN PAPER VARIETY. UNDERCATALOGUED IN SCOTT.  
The National Bank Note Co. undoubtedly made various attempts to improve grilling quality and efficiency through modifications in the process. Based on surviving stamps, it appears that one modification involved the use of very thin paper, which probably allowed two or more sheets to be grilled in one pass through the grilling device. The 1c (F), 2c (E and F), 3c (E and F), 5c (F), 10c (F), 12c (F) and 15c (F) are found on this very thin paper. They are scarce, particularly the 5c-15c values in original-gum condition.

EXTREMELY FINE GEM. A RARE STAMP IN ANY CONDITION — THIS 3-CENT 1869 RE-ISSUE RANKS AMONG THE VERY FINEST IN TERMS OF COLOR, CENTERING, FRESHNESS AND GUM. ONE OF THE FEW TIMES OUR FIRM HAS OFFERED SUCH A SUPERB EXAMPLE IN MANY YEARS.

Original sales figures show that among the 1869 Pictorial Re-Issues, the 3c and 90c stamps accounted for the smallest number of units sold (1,406 and 1,356, respectively). Overall, the 1869's were popular with stamp collectors, far outselling the 1851-60 and 1861-66 Re-Issue sets. However, the 90c stamp's high denomination and the availability of ordinary 3c stamps limited demand. Today, both are rare, and handling over the years has not been kind to most of the surviving examples. This 3c is remarkable not only for its centering (an unusual example of near-perfect centering), but its overall freshness, both on the face and back, is remarkable.

EXTREMELY FINE GEM. ONE OF THE FINEST ORIGINAL-GUM EXAMPLES OF THE 2-CENT PAN-AMERICAN INVERT.

The 2c is the rarest of the three Pan-American Inverts. It is surmised that approximately 200 were issued through the post office, with two distinct shades known. Estimates of surviving examples range from an early count (1945) of 55 unused and 2-3 used to the 1998 Datz estimate of 150 unused, 3-5 used and a block of four intact. Our Levi records contain the intact block (4), reconstructed block (4), 64 unused singles and 6 used singles, for a total of 72 unused and 6 used. Many of the unused singles have disturbed gum or no gum, and/or are off center to top or top left.

With 1999 P.F. certificate. Scott footnote states "Almost all unused copies of No. 295a have partial or disturbed gum. Values are for examples with full original gum that is slightly disturbed." .....(Photo) 37,500.00

EXTREMELY FINE AND VERY RARE. ONE OF THE FINEST USED EXAMPLES OF THE 1923 1-CENT ROTARY PERF 11, SCOTT 544.  
A small quantity of 1c Rotary Press stamps was perforated 11 at the end of 1922, using remainder sheets from the earlier printings that were normally perforated in 10 gauge or 11/10 compound gauge. Its existence as a Perf 11 variety was discovered in 1936, and the stamp received its Scott catalogue listing in 1938.  
Most of the recorded used copies of Scott 544 are poorly centered. This well-centered, lightly-cancelled stamp is an extreme rarity.

END OF SALE—THANK YOU

## SERVICES FOR BUYERS

If you wish to participate in our auctions, we will be pleased to assist you in many ways. Most of the following services are provided without additional charge.

### **Mail Viewing**

Subject to availability, many lots can be sent to established clients (or those who submit references) for examination. Requests must be made no later than five days prior to the auction. Lots must be returned on the day of receipt. Postage/insurance costs will be invoiced. Large lots will not be available for mail viewing.

### **Viewing by Appointment**

In addition to the regular public viewing hours, prospective bidders may view lots at our galleries by appointment.

### **Lot Review**

Our on-staff philatelists will be pleased to review the description of any lot and provide more detailed information.

### **Opening Bids**

During the two days prior to the sale, we will furnish approximate opening bids by phone or fax. Openings often change (up or down) and cannot be guaranteed as a reliable indicator of where the auctioneer will start the bidding. Opening bids will not be given on sale days.

### **Hotel and Restaurant Reservations**

We will be pleased to furnish the names of good hotels and restaurants in the area. During peak seasons, we may be able to assist in placing reservations.

### **Absentee Bidding by Phone or Fax**

Bidders who cannot attend the sale may leave written bidding instructions (see Bid Form). Bids called in must be confirmed in writing by fax or mail.

### **Telephone Bidding**

Prospective bidders may apply for a telephone link to the auction and bid through one of our staff members. Applicants must call at least 24 hours prior to the sale date. Phone links are subject to availability and may be cancelled due to oversubscription.

### **Expert Certification**

Individual items offered without a Philatelic Foundation certificate (or other accepted authority's certificate) dated within the past five years may be purchased subject to certification (please see Conditions of Sale for details).

### **Shipping and Delivery of Lots**

Instructions for shipping must be given to the gallery prior to or immediately after the sale. Unless special instructions are received, we will follow the shipping guidelines on the back of the Bid Form. Buyers are responsible for all prescribed shipping charges, whether or not the actual out-of-pocket expense is equal to the invoiced charge.

### **Prices Realized**

A list of prices realized will be included with every buyer's invoice. We will accept phone and fax requests for prices realized at any time during or after the auction. For those who qualify, our *ASAP Prices Realized* service will provide faxed daily results during the evening of the sale day (application available upon request). Printed prices realized lists are mailed to all others within 30 to 60 days of the sale.

## SERVICES FOR SELLERS

If you wish to sell stamps, we will be pleased to provide the following standard services and options. Specially tailored proposals will be made for significant items and collections.

### **Appraisals**

Verbal appraisals of material brought to our galleries are free of charge. Written appraisals for estate tax, insurance or other purposes are billed at hourly (\$50) or daily (\$500) rates. Fees will be rebated if the property is consigned within a certain period of time.

### **On-Site Sale Consultation**

If your consignment is worth \$75,000 or more, we will travel to you at our expense.

### **Consignment Deadlines**

Closing dates for consignment can always be found in our quarterly newsletter, *The Siegel Despatch*, and in our web site:

SiegelAuctions.com

### **Sale Settlement**

42 days from the sale date, consignor proceeds are mailed. Since 1930 our firm has never missed settlement day.

### **Commission Rates**

10% seller's commission and 10% buyer's premium. Minimum seller's commission is \$25 per lot. Special terms for more valuable properties may be discussed.

### **The Siegel Guarantee**

Major collections can be offered at auction with a guaranteed minimum net realization. Estate executors who must protect beneficiaries' interests will be fully insured against a market downturn by the Siegel Guarantee.

### **Advances**

Advances up to 50% of our valuation are available to consignors under certain terms.

### **Negotiated Sale for Immediate Payment**

If you wish to sell your stamps for a specific price, we will be pleased to make an offer on behalf of ourselves or other clients.

### **Single-Owner Sales**

Collections with a fair market value of \$300,000 or more may qualify for a special single-owner sale catalogue. The Siegel firm leads the way in offering major name sales, including over the years the Krug, Newbury, Lilly, Matthies, Weatherly, Grunin, Rohloff, Baker, Haas, Kimmel, Wunderlich, Cole, Kapiloff, Honolulu Advertiser, Morris, Rose and Birkinbine collections.

### **Annual Rarities of the World Sale**

Suitable individual rarities will be accepted for our annual Rarities of the World auction. The consignment deadline for this auction is generally in early March.
