Conditions of Sale (Important—please read carefully)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 10% of the final bid (“buyer’s premium”), together with any sales tax or use tax which may be due on the sale.**
2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.
3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.
4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum final bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve.** In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.
5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults” or “defects” may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**
6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. **The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder.

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. **Any lot which is accompanied by an expert certificate (for U.S. items, the accepted authority is The Philatelic Foundation), dated within the past five years of the sale date, is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion obtained after the sale.** Buyers who wish to obtain a certificate for any item that is not accompanied by a certificate dated within the past five years may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to \$100.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs (see back of Bid Form).

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

Grading Terms, Abbreviations and Values Used in Descriptions

Grade and Centering

Margin width, centering and gum are graded according to Scott Catalogue standards.

Extremely Fine (EF): Exceptionally large margins or near perfect centering. The term “Gem” describes condition that is the finest possible for the issue.

Very Fine (VF): Normal size margins for the issue and well-centered with the design a bit closer to one side.

Fine (F): Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

Very Good (VG): Attractive appearance, but margins or perforations cut into the design.

Good (G) or Average (Ave.): Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

Gum Categories:	MINT N.H.	ORIGINAL GUM (O.G.)				NO GUM

The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some

Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

1851-56 ISSUE

35

- 35 **1c Blue, Ty. I (5).** Position 7R1E, beautiful bright Plate 1 Early color, full margins all around except just barely along lower left, the key Type I features are complete, light strike of grid cancel, two small filled thin spots, also a small sealed tear not mentioned on accompanying certificate

VERY FINE APPEARING EXAMPLE OF THE IMPERFORATE 1851 ONE-CENT TYPE I. ONLY POSITION 7R1E — THE SEVENTH STAMP IN THE RIGHT PANE OF PLATE 1 EARLY — FURNISHED IMPERFORATE 1851 ONE-CENT STAMPS SHOWING THE COMPLETE DESIGN (TYPE I). A HIGHLY DESIRABLE CLASSIC UNITED STATES STAMP.

Mal Brown's census contains at least 80 unduplicated records of Scott 5. There are probably no more than ten examples existing outside of the Brown census population. Therefore, the 1c 1851 Type I is the rarest of all United States stamps issued regularly prior to the 1868 Grills.

Any 1c 1851 Type I stamp with margins showing the complete design at top and bottom is extremely rare and desirable. The margin width overrides other condition factors, as demonstrated by the \$50,000 to \$70,000 prices paid for full-margined examples with small faults.

Ex William White. With 1986 P.F. certificate 37,500.00

36

1c Blue, Ty. Ib (5A). Position 8R1E, large margins to clear including part of sheet margin at top, beautiful Plate 1 Early color, showing clear double transfer at top left, neat strike of red grid cancel, two horizontal creases at bottom, faint corner crease at top right

EXTREMELY FINE APPEARANCE. A BEAUTIFUL EXAMPLE OF ONE OF THE TWO MOST DISTINCT TYPE Ib POSITIONS.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1E furnished Type Ib, distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, unlike 7R, small portions of the bottoms were burnished away. Positions 6R and 8R had less of the bottom erased than the other Type Ib positions, and for this reason they are more desirable examples of the type. A Type Ib with large margins all around is a great rarity, and only a handful are cancelled in red. Despite the creases, this is an unusually choice example.

With 1974 P.F. certificate. For some reason, the Scott Catalogue does not assign a premium for the red grid cancel.

38

39

- 37 **1c Blue, Ty. Ib (5A).** Position 6R1E, clear margins to touched and showing complete design at top, beautiful Plate 1E color — the so-called “Robin’s Egg” shade from early impressions — sharp and detailed impression, color is nicely contrasted by light strike of red grid cancel

VERY FINE EXAMPLE OF THE RARE ONE-CENT 1851 TYPE Ib. THIS POSITION AND ONE OTHER (8R1E) YIELD THE TWO BEST EXAMPLES OF THIS TYPE.

Signed and plated by Ashbrook. Scott does not assign a premium for the red cancel.

8,250.00

- 38 **1c Blue, Ty. Ib (5A).** Position 8R1E, large margins to just touching at bottom showing complete design at top and scroll at bottom right (the two defining characteristics of the type), light circular datestamp, fresh color, repaired corner and small filled thin, Very Fine appearing example of the rare Ty. Ib, this position and 6R1E furnished the best examples of the type (see lot 36 for further explanation), with 1992 P.S.E. certificate.....

8,250.00

- 39 **1c Blue, Ty. Ib (5A).** Position 4R1E, large margins to just barely in, pretty Plate 1E color, neat strike of oval “Utica N.Y.” datestamp, small scrape at top above “U” of “U.S.”, otherwise Fine example of this scarce type which shows design complete at top and almost complete at bottom, the oval town datestamp is very rare on Type Ib, with 1991 P.F. certificate

5,000.00

40

- 40 ☒ **1c Blue, Ty. Ia (6).** Position 98L4, ample to huge margins, with trace of adjoining stamp at top, rich color, tied by cork on blue circular to Lee Mass., printed dateline "Norwich, Feb. 1st, 1857" but no mailing date — Plate 4 is known used as early as April 1857 — light central file fold, stamp with small scissors-cut at top left barely touches design

EXTREMELY FINE GEM. A SUPERB ORIGINAL-GUM EXAMPLE OF THE 30-CENT 1857 ISSUE.

Although some sheets of the 24c, 30c and 90c 1857-60 Issue were left in the public's hands after the Civil War demonetization took effect, original-gum examples of the 30c in Extremely Fine grade are extremely rare, owing to the narrow space between subjects on the plate and the difficulty experienced by Toppan, Carpenter with the first perforated issue. This stamp is extraordinary in three respects: first, it is perfectly centered with the design framed by white margin on all sides; second, it is very lightly hinged; and, third, the color is brilliant and free of any oxidation that frequently plagues this issue.

A VERY FINE AND EXTREMELY RARE SOUND USED EXAMPLE OF THE SHORT-LIVED 90-CENT 1860 ISSUE.

The basic 24c and 30c rates to England, France and Germany created a large volume of mail franked with those values of the 1857-61 series. However, the 90c saw much more limited use, partly due to the rates in effect, but more because of the American Civil War. When supplies of current postage stamps were declared invalid in the South and ultimately demonetized by the Federal government, the 90c had been in use for only one year. For this reason, genuinely cancelled copies and covers bearing the 90c are extremely rare. Approximately 180 used examples have been certified by The Philatelic Foundation, of which only one-quarter are sound. The cancel most often seen on genuine used examples of the 90c is the New York red grid. The stamp offered here, with a lightly-struck black grid, is a remarkable rarity.

EXTREMELY FINE GEM EXAMPLE OF THE 24-CENT BROWN LILAC WITH ORIGINAL GUM. A MUST-HAVE STAMP FOR THE COLLECTOR ASSEMBLING A RANGE OF THE 1861 COLORS.

As noted in several of the descriptions of original-gum 1861's in our recent auctions, the 1861-66 stamps are available in unused no-gum condition or low grades of original-gum condition; however, the combination of original gum and choice centering is so rare that Scott values represent a small fraction of current market value.

EXTREMELY FINE. ONE OF THE FINEST EXAMPLES OF THE RARE 1861 3-CENT SCARLET TRIAL PRINTING WITHOUT PEN MARKS. THIS STAMP COMES FROM THE SCOTT GROUP.

The story of the 3c Scarlet has been well-documented by Jerome S. Wagshal in a series of articles appearing in the *Chronicle* (Nos. 56, 60, 61 and 62). Wagshal quotes statements made in 1893 and 1910 by a Washington D.C. stamp dealer, Carl F. Rothfuchs, to the effect that Rothfuchs obtained a supply of the 3c Scarlet in 1893 — probably from the Post Office Department in exchange for his assistance with the Columbian Exposition — and sold them with pen marks and original gum. The Rothfuchs lot is not from the same supply acquired by John W. Scott in the late 1870's, from which stamps exist uncanceled and cancelled with a New York City Station D oval. This unused stamp comes from the Scott supply.

EXTREMELY FINE GEM. THIS STAMP DISPLAYS MARGINS AND CENTERING RARELY ENCOUNTERED AMONG EXAMPLES OF THE 5-CENT 1861-63 ISSUE. TRULY OUTSTANDING QUALITY.
Although without gum, the centering and margins of this stamp are phenomenal. The 5c 1861-63 Issue (Buff, Red Brown and Brown) rarely come with wide even margins. This stamp looks more like its 1875 Re-Issue counterpart from the new wider-spaced plate. For the collector who is not concerned with original gum, this stamp ranks among the finest in existence.

If this stamp did not have the nearly-invisible corner crease and minute margin tear noted on the accompanying certificate, it would rank among the finest 2c Z Grill stamps in existence, with a value of \$15,000 to \$20,000.  VERY FINE CENTERING. AN ATTRACTIVE AND EXTREMELY RARE EXAMPLE OF THE 1868 3-CENT Z-GRILL WITH ORIGINAL GUM.
 Excluding the supremely rare grilled stamps — 5c and 30c A Grill, 3c B Grill, 1c, 10c and 15c Z Grills — the 3c Z Grill is the rarest of the regularly-produced grilled issues. Examples of the 3c Z Grill with original gum are usually far off center and faulty. This stamp has unusually choice centering, and the crease at bottom, which creates a few tiny pinpoint breaks in the grill, does not affect the appearance to any significant degree.

EXTREMELY FINE AND CHOICE EXAMPLE OF THE 15-CENT F GRILL. A BEAUTIFUL STAMP.

To underscore the rarity of the 15c F Grill in such choice condition, a similarly-centered original-gum example realized \$10,000 hammer in our 2000 Rarities sale.

EXTREMELY FINE GEM. A SUPERB EXAMPLE OF THE 1868 24-CENT F GRILL. AN EXCEEDINGLY RARE STAMP IN SUCH CONDITION.

EXTREMELY FINE. THE 1868 30-CENT F GRILL IS RARELY FOUND WITH SUCH WIDE MARGINS AND SUPERB CENTERING. THIS STAMP CERTAINLY RANKS AMONG THE FINEST UNUSED EXAMPLES IN EXISTENCE.

The Scott footnote to No. 100 states: "Values for No. 100 are for copies with small margins, especially at sides. Large-margined examples sell for much more." Our best estimate is that no more than a dozen 30c F Grill stamps — with original gum or unused — exist with margins and centering comparable to this example. We make that statement after searching auction catalogues for major sales held during the past 50 years.

EXTREMELY FINE. THE 15-CENT 1873 CONTINENTAL IS ONE OF THE MOST ELUSIVE BANK NOTE ISSUES IN THIS GRADE OF ORIGINAL-GUM CONDITION.

Although defined by a secret mark, the 15c Continental, Scott 163, is very difficult to distinguish from its National counterpart, Scott 152. Certain shades and impressions of the 15c Continental closely match certain National printings, and the secret mark is often undetectable. However, the stamp offered here has what we believe are characteristics unique to Continental's work. The shade is very bright and yellowish. The gum is white and smooth (National gum is typically dark brown and uneven). The secret mark in the upper left triangle is also prominently featured in this impression. There is simply no question that this is a 15c Continental. Collectors who have searched for a well-centered Scott 163 with original gum know how rare it is in such condition. Off-center stamps are the norm, and original gum is a rare commodity in this issue. The same can be said for the 30c Continental, Scott 165, and we sold one of those for \$21,000 hammer in our 2000 Rarities sale (versus \$1,750 catalogue value).

EXTREMELY FINE GEM. AN EXTRAORDINARY MINT NEVER-HINGED 30-CENT 1879 AMERICAN BANK NOTE ISSUE. THIS ISSUE IS RARELY OBTAINABLE IN CHOICE NEVER-HINGED CONDITION.

The 30c 1879 American Bank Note Company issue is surprisingly difficult to obtain in choice Mint N.H. condition. It is surprising because the 15c (Scott 189) is readily available. However, a survey of our photo records and auction library revealed the scarcity of well-centered 30c blocks from which singles could be harvested. The blocks in the Green sales were off center. Caspary had a well-centered hinged block of four, and Lilly had a block of nine with problems. The Moody block of six was well-centered, but appears to have had hinge remnants on all stamps. The Todd collection had two blocks, including one with a Mint N.H. pair at bottom (this has probably been broken, furnishing at least two Mint N.H. stamps). The Close collection had a well-centered block of four (with reinforcing) and a large plate block. The Siegel firm's three major Bank Note Issue sales (Braus, Hirschfield, Wunderlich) contained blocks, but all were either off center or had hinge remnants. A well-centered block of four appeared in our 1982 Rarities sale, but it was hinged.

For the collector who desires only Mint Never-Hinged stamps, this offering is significant. As a guide to relative value, two Extremely Fine examples in lightly-hinged condition have brought \$3,500 each in auctions during the past two years. This Mint Never-Hinged stamp could easily realize twice that figure.

EXTREMELY FINE. A RARE MINT NEVER-HINGED \$5.00 COLUMBIAN WITH SUPERB CENTERING AND REMARKABLY FRESHNESS.

In our 2000 Rarities sale, we offered a \$5.00 Columbian in Extremely Fine Mint N.H. condition, which came from the Maine Safe Deposit Box find. It realized \$49,500. To prepare our description of that stamp, we surveyed dozens of auction catalogues, searching for Mint Never-Hinged examples in Extremely Fine grade. We found no more than ten stamps, some from auctions dating back 40 years, and there is no guarantee that all of the stamps previously described as Mint N.H. would pass the test today. The rarity of the \$5.00 Columbian in Mint N.H. condition is easily explained. For more than a century, collectors have proudly hinged this highest value of the Columbian set in their albums, and the vast majority of stamps have not escaped the hinge. Only the break-up of blocks, which rarely contain Mint N.H. stamps, has provided the few Extremely Fine Mint N.H. \$5.00 Columbian stamps extant today.

The stamp offered here does not have the margin width of the \$49,500 Maine Find stamp, but it is remarkably fresh and almost perfectly centered. In our opinion, the current Scott value of \$8,000 for Very Fine Mint N.H. condition does not adequately convey the market demand. We will not be surprised to see this stamp bring two or more times Scott Catalogue value.

582 ★★ **50c Orange (260). Mint N.H.**, perfectly framed with enormous even margins, brilliant color and sharp impression

EXTREMELY FINE GEM. THIS STAMP IS WITHOUT QUESTION THE FINEST EXAMPLE OF THE 50-CENT 1894 UNWATERMARKED BUREAU ISSUE IN EXISTENCE.

The unwatermarked 1894 Issue was the Bureau of Engraving and Printing's first effort producing postage stamps. As collectors know only too well, the 1894 unwatermarked stamps are typically poorly centered with irregular perforations. Issued quantities of the higher values on unwatermarked paper were small — only 175,330 of the 50c, compared to 244,110 of the 30c 1869 — and collectors have hinged most of the supply in philatelic hands. This 50c stamp has margins and centering rarely seen on *any* copy, used or unused, and its Mint Never-Hinged condition elevates it to the top of its class. If anyone owns a Scott 260 of equal quality, we would like to know about it.

In his three-volume work on 19th Century United States stamps, Lester G. Brookman wrote the following about the 50c 1894 Issue: "There are few, if any, of the 19th century U.S. stamps that are so difficult to find in superb used condition as is this stamp. The price for commercial copies of this stamp can well be multiplied by 10 and the buyer of a superb copy of this stamp at such a price can rejoice in the fact he has a bargain!" Brookman's comments apply equally to 50c stamps with original gum and actually understate the value of a Mint Never-Hinged example.

FRESH AND FINE. AN EXTREMELY RARE IMPRINT AND PLATE NUMBER STRIP OF THE \$1.00 1894 UNWATERMARKED BUREAU TYPES I AND II.

The \$1.00 1894-95 plate — comprising 200 subjects arranged in two panes of 100 — included five vertical columns of Type II (50 subjects). The left half of one pane was made up of Type I stamps, and the right half of the same pane comprised Type II stamps. The other pane was entirely Type I. Therefore, where the imprint and plate number appears at top and bottom, the two stamps at right are Type II, and the one stamp at left is Type I. Combination pairs and strips, which exist only between fifth and sixth columns, are extremely rare and desirable. Plate number strips and blocks are of even greater rarity, and only a small number of the 1894 unwatermarked issue exist.

MAGNIFICENT BUREAU PLATE STRIPS

THE FOLLOWING THREE LOTS are perhaps the most beautiful set of imprint and plate number strips of the three 1895 Bureau dollar values in existence. The most popular method of collecting United States multiples in the late 19th and early 20th century was as strips, not plate blocks. However, many plate strips have been lost to philately during the past decade as dealers have broken them to furnish single stamps to the market. Of those that remain, there are very few in choice well-centered condition. Strips such as the group offered here — each with a full sheet margin, superb centering and bright fresh color — are extremely rare and desirable. Together, they form an incomparable set of the highest order of rarity.

610 ★ **\$1.00 Black, Types I-II-II (276-276A-276A).** Top sheet margin strip of three with imprint and plate no. 76, left stamp Type I and right pair Type II, barest traces of hinging, remarkably fresh and superbly centered, intense shade and impression

EXTREMELY FINE GEM. A SUPERB PLATE NUMBER STRIP WITH BOTH TYPES OF THE \$1.00 1895 ISSUE — EXCEEDINGLY RARE WITH A FULL TOP SHEET MARGIN AND THIS PERFECT CENTERING.

The \$1.00 1894-95 plate — comprising 200 subjects arranged in two panes of 100 — included five vertical columns of Type II (50 subjects). The left half of one pane was made up of Type I stamps, and the right half of the same pane comprised Type II stamps. The other pane was entirely Type I. Therefore, where the imprint and plate number appears at top and bottom, the two stamps at right are Type II, and the one stamp at left is Type I. Combination pairs and strips, which exist only between fifth and sixth columns, are extremely rare and desirable. Plate number strips and blocks are of even greater rarity. The strip offered here is one of the finest in existence, with unusually choice centering, intense shade and bright paper. The gum is virtually free of any trace of a previous hinge.

The 4c Pan-American Invert was a special printing and not regularly issued. Examples were distributed through two official channels, and the gum on the majority of stamps without "Specimen" overprint was disturbed due to removal from mounting paper. In fact, many of these stamps are thinned or have seriously disturbed gum. The stamp offered here is sound except for the regumming.

A PRESENTABLE EXAMPLE OF THE RARE 4-CENT PAN-AMERICAN INVERT.

If the reported numbers are correct, a total of 203 4c Inverts was released, both with and without the overprint. An unknown quantity of the 4c Pan-American invert was overprinted with a small "Specimen" overprint. Some examples, both with and without the overprint, were given away by Third Asst. Postmaster General Edwin C. Madden. When postal authorities learned of the practice, they destroyed 194 copies and put one pane of 100 into the official archives. At a later date, 97 of these were later traded for rarities missing from the archives.

EXTREMELY FINE. AN OUTSTANDING MINT NEVER-HINGED EXAMPLE OF THE 50-CENT 1902 ISSUE.

The 1902-03 Regular Issue showed marked improvement over the Bureau's first efforts in 1894 and 1895. Perforations tend to be cleaner, and centering better, but the large plate layout and perforating method still resulted in a large number of poorly-centered stamps. Furthermore, stamps issued in choice condition were hinged by avid philatelists during the stamp collecting boom that began with the Roosevelt administration. For this reason, today's collectors have grown accustomed to paying many multiples of Scott value for Extremely Fine Mint Never-Hinged stamps. Anyone who has pursued this set can testify that the 50c is rarely encountered in such condition.

EXTREMELY FINE GEM. AN EXTRAORDINARILY FRESH AND SUPERBLY CENTERED MINT NEVER-HINGED EXAMPLE OF THE \$1.00 WASHINGTON ISSUE.

The experimental Bluish Paper issue of 1909 was created as part of an effort to combat paper shrinkage, which resulted in a high rate of spoilage and off-center stamps in the earlier 1908 issue, to which this \$1.00 Washington belongs. Many values of the set, particularly the high values, are difficult to find in centered Mint N.H. condition.

EXTREMELY FINE APPEARANCE. A BEAUTIFUL PLATE NUMBER BLOCK OF THE \$1.00 WASHINGTON.

Excluding the Bluish Paper issue, this is one of the rarest of the Washington-Franklin plate blocks. As noted in lot 753, the Bureau experienced difficulty with paper shrinkage while printing the 1908 Issue, and the Bluish Paper experiments of 1909 were part of an effort to correct the problem. The 1908 high-denomination stamps are difficult to find well-centered, and plate blocks are extremely rare in higher grades.

ORANGEBURG COIL

EXTREMELY FINE GEM. ONE OF THE FINEST EXAMPLES OF THE RARE 3-CENT ORANGEBURG COIL. THERE ARE PROBABLY NO MORE THAN FIVE SOUND EXTREMELY FINE USED COPIES IN EXISTENCE.

The Orangeburg coil was made by the Post Office Department in 1911 specifically for use by the Bell Pharmaceutical Company. The 3c coil stamps were used to send samples of their products to physicians. Due to the quantity of mail, they were put through the first-class cancelling machine at Orangeburg, New York. The Orangeburg coil stamps' use on third class mail and the fact that philatelists were generally unaware of their production account for their rarity today.

EXTREMELY FINE APPEARANCE. A POST-OFFICE FRESH JOINT LINE PAIR OF THE RARE 2-CENT 1915 ROTARY TYPE I COIL — THIS IS THE SCOTT-LISTED CARMINE ROSE SHADE, WHICH IS OF EVEN GREATER RARITY.

The 2c Type I rotary plate was used very briefly to make vertical coils issued in December 1915. It was superseded in February 1916 by the Type III plate. The early printing of the 2c Rotary Vertical Coil was almost completely overlooked by the contemporary philatelic community, which failed to anticipate further vertical coil production.

The Carmine Rose shade differs slightly from the normal Red color. Almost nothing has been written about this variety, as far as we can determine. An accompanying letter from Gordon R. Harmer at Scott Publications, dated May 10, 1949, to C. B. Durland, states: "We agree that this is a new shade for the Catalogue and will list it in the next edition of the Catalogue."

With 1965 and 1994 P.F. certificates. Scott value for a line pair in the normal Red shade 15,000.00

FRESH AND EXTREMELY FINE. AN OUTSTANDING EXAMPLE OF THE RARE 30-CENT PERF 10 ON UNWATERMARKED PAPER.

In an article in *Philatelic Opinions V* published by the Philatelic Foundation, William T. Crowe, head of the Expert Committee, discusses the discovery of this rare stamp and how it might have been issued. The production of Scott 476A occurred during the period of transition from gauge-10 perfs to gauge 11. Bureau records do not list a 30c printing on unwatermarked paper that was perforated 10, but the existence of two certified panes—one bottom-right pane from Plate 6917 and one top-right pane from Plate 6911—is evidence that the combination of new unwatermarked paper and old 10-gauge perfs occurred, even if inadvertently.

EXTREMELY FINE. A BEAUTIFUL EXAMPLE OF THE 5-CENT IMPERFORATE ERROR, OF WHICH LESS THAN 50 SHEETS WERE RELEASED TO THE PUBLIC.

During the course of production of the normal 2c plate No. 7942, three positions were noted to be defective. The plate was sent back to the siderographer, who burnished out the three positions and mistakenly re-entered them using a transfer roll for the 5c stamp. The error passed unnoticed and the sheets were issued to the public both Perf 10, Imperforate and Perf 11 (Scott 467, 485 and 505). The imperforate is by far the rarest of the three, having come from a group of fifty sheets released to the public.

VERY FINE. AN EXTREMELY RARE AND DESIRABLE PLATE NUMBER BLOCK OF THE 1918 \$2.00 ORANGE RED & BLACK. ONLY A HANDFUL OF PLATE BLOCKS EXIST, AND THIS LARGE MULTIPLE IS EVEN RARER AND MORE DESIRABLE.

The \$2.00 and \$5.00 1918 Issue are the first bi-colored dollar-denominated postage stamps issued by the United States. Both were released just three months after the famous 1918 24c Inverted Jenny, but the early printings were issued in small quantities, since stocks of the 1902 \$2.00 and \$5.00 1917 issue were still on hand.

According to Johl, the \$2.00 Orange Red & Black was a color error on the part of the Bureau of Engraving & Printing. The official description and order for the bi-color stamps specified "Red and Black" for the \$2.00. When subsequent printings appeared in 1920 and philatelists brought the matter to the attention of the Bureau, they were told "this stamp has always been this color" (Johl, p. 306). From studies of Bureau and Post Office records, it is clear that the originally-intended color was not issued until November 1920 (Scott 547), and that the earlier Orange Red stamps were mistakes. The quantity issued has been variously estimated at between 47,000 and 68,000. 15,250.00

VERY FINE. A BRIGHT AND FRESH WELL-CENTERED EXAMPLE OF THE FAMOUS INVERTED JENNY.

According to *Jenny!* by George Amick (Amos Press, 1986), William T. Robey purchased the original sheet of 100 inverted "Jenny" stamps on May 14, 1918, one day after the stamp was placed on sale, at the New York Avenue Post Office window in Washington, D.C. Soon after, the sheet was sold to Col. Edward H. R. Green through Eugene Klein, a Philadelphia stamp dealer. Green paid \$20,000 for the sheet, then instructed Klein to divide it into singles and blocks, and to sell all but a few key position blocks.

Stamp specialists and professionals know that examples of this stamp come in different grades of freshness and condition. Many of the original 100 stamps were mistreated by collectors over the years, despite the stamps' rarity and value. Colonel Green himself allowed moisture to affect some of the stamps he retained. Other examples have become slightly toned from improper storage and climatic conditions. Hinging has caused thins and creases in numerous stamps, and at least seven have been "lost" to philately — or nearly so as in the case of the copy swept up in a vacuum cleaner.

This stamp is in an extraordinary state of freshness, with excellent color, bright paper and clean fresh gum with only a small hinged area.
