## Conditions of Sale (Important—please read carefully)

The property described in this catalogue will be offered at public auction by Robert A. Siegel Auction Galleries, Inc. (“Galleries”) on behalf of various consignors and itself or affiliated companies. By bidding on any lot, whether directly or by or through an agent, in person, or by telephone, facsimile or any other means, the bidder acknowledges and agrees to all of the following Conditions of Sale.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. The term “final bid” means the last bid acknowledged by the auctioneer, which is normally the highest bid offered. **The purchase price payable by the buyer will be the sum of the final bid and a commission of 15% of the final bid (“buyer’s premium”), together with any sales tax or use tax which may be due on the sale.**

2. The auctioneer has the right to reject any bid, to advance the bidding at his discretion and, in the event of a dispute between bidders, to determine the successful bidder, to continue the bidding or to reoffer and resell the lot in dispute. The Galleries’ record of the final sale shall be conclusive.

3. All bids are per numbered lot in the catalogue unless otherwise announced by the auctioneer at the time of sale. The right is reserved to group two or more lots, to withdraw any lot or lots from the sale, or to act on behalf of the seller. The Galleries will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids.

4. **Lots with numbers followed by the symbol ° are offered subject to a confidential minimum final bid (“reserve”), below which the lot will not be sold. The absence of the symbol ° means that the lot is offered without a reserve.** In the absence of a reserve, the auctioneer has sole discretion to establish a minimum opening bid and may refuse an offer of less than half of the published estimate. Any lot that does not reach its reserve or opening bid requested by the auctioneer will be announced as “passed” and excluded from the prices realized lists after the sale. The Galleries may have a direct or indirect ownership interest in any or all lots in the sale resulting from an advance of monies or goods-in-trade or a guarantee of minimum net proceeds made by the Galleries to the seller.

5. Any lot, the description of which is obviously incorrect, is returnable, but only if the lot is returned within 14 days of receipt. All disputed lots must be returned intact with the original packing material. **The following lots may not be returned for any reason: Lots containing ten or more items; lots from buyers who have registered for the pre-sale exhibition or received lots by postal viewing, thereby having had the opportunity to inspect them before the sale; any lot described with “faults” or “defects” may not be returned because of any fault or defect. No illustrated lots may be returned because of centering, margins or other factors shown in the illustrations.**

6. Successful bidders, unless they have established credit with the Galleries prior to the sale, must make payment in full before the lots will be delivered. Buyers not known to the Galleries must make payment in full within three days from the date of sale. **The Galleries retain the right to demand a cash deposit from anyone prior to bidder registration and/or to demand payment at the time the lot is knocked down to the highest bidder, for any reason whatsoever.** In the event that any buyer refuses or fails to make payment in cash for any lot at the time it is knocked down to him, the auctioneer reserves the right to reoffer the lot immediately for sale to the highest bidder. **Credit cards are not accepted as payment.**

7. If the purchase price has not been paid within the time limit specified above, nor lots taken up within seven days from the date of sale, the lots will be resold by whatever means deemed appropriate by the Galleries, and any loss incurred from resale will be charged to the defaulting buyer. Any account more than thirty days in arrears will be subject to a late payment charge of 1½% per month as long as the account remains in arrears. Any expenses incurred in securing payment from delinquent accounts will be charged to the defaulter. A fee of \$250.00 per check will be charged for each check returned for insufficient funds.

8. All lots are sold as genuine. **Any lot accompanied by a certificate issued by The Philatelic Foundation within 5 years of the sale date or by Professional Stamp Experts since January 2004 is sold “as is” and in accordance with the description on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary certificate of opinion.** Buyers who wish to obtain a certificate for any item that does not have a P.F. or P.S.E. certificate (dated as above) may do so, provided that the following conditions are met: (1) the purchase price must be paid in full, (2) the item must be submitted to an acceptable expertizing committee with a properly executed application form within 21 days of the sale, (3) a copy of the application form must be given to the Galleries, (4) in the event that an adverse opinion is received, the Galleries retain the right to resubmit the item on the buyer’s behalf for reconsideration, without time limit or other restrictions, (5) unless written notification to the contrary is received, items submitted for certification will be considered cleared 90 days from the date of sale, and (6) in the event any item is determined to be “not as described”, the buyer will be refunded the purchase price and the certification fee up to \$500.00 unless otherwise agreed.

9. Until paid for in full, all lots remain the property of the Galleries on behalf of the seller.

10. Agents executing bids on behalf of clients will be held responsible for all purchases made on behalf of clients unless otherwise arranged prior to the sale.

11. The buyer assumes all risk for delivery of purchased lots and agrees to pay for prescribed shipping costs.

12. The bidder consents that any action or proceeding against it may be commenced and maintained in any court within the State of New York or in the United States District Court for the Southern District of New York, that the courts of the State of New York and United States District Court for the Southern District of New York shall have jurisdiction with respect to the subject matter hereof and the person of the bidder. The bidder agrees not to assert any defense to any action or proceeding initiated by Galleries based upon improper venue or inconvenient forum. The bidder agrees that any action brought by the bidder shall be commenced and maintained only in a Federal Court in the United States District Court for the Southern District of New York or the State Court in the county in which Galleries has its principal place of business in New York. These Terms and Conditions shall be governed by and construed in accordance with the substantive laws of the State of New York.

# Grading Terms, Abbreviations and Values Used in Descriptions

## Grade and Centering

The following terms are used in Siegel sale catalogues (corresponding numerical ranges shown in parentheses). Margin width, centering and gum are described according to generally-accepted standards. Stamps are graded based on our subjective assessment of condition for each issue, which do not necessarily correlate with third-party grading terms or standards for all issues. **A lot may not be returned because a certification service grades a stamp lower than the grade stated. Information from the P.S.E. Stamp Market Quarterly and P.S.E. Population Report<sup>SM</sup> is the most current available, but lots may not be returned due to errors or changes in statistics or data.**

**Extremely Fine Gem (90-100 pts.):** The term “Gem” used in Siegel catalogues describes condition that is the finest possible for the issue.

**Extremely Fine (80-90 pts.):** Exceptionally large margins or near perfect centering.

**Very Fine (70-85 pts.):** Normal size margins for the issue and well-centered with the design a bit closer to one side. “Very Fine and choice” applies to stamps that have desirable traits such as rich color, sharp impression, freshness or clarity of cancel.

**Fine (60-70):** Smaller than usual margins or noticeably off center. Pre-1890 issues may have the design touched in places.

**Very Good (below 60):** Attractive appearance, but margins or perforations cut into the design.

**Good (G) or Average (Ave.):** Cut into or perfs far into design and usually with slight faults. This condition is generally acceptable for rarities, scarce multiples or stamps used on unusual covers.

Gum Categories:	MINT N.H.	ORIGINAL GUM (O.G.)				NO GUM
	 <b>Mint Never Hinged</b> <i>Free from any disturbance</i>	 <b>Lightly Hinged</b> <i>Faint impression of a removed hinge over a small area</i>	 <b>Hinge Mark or Remnant</b> <i>Prominent hinged spot with part or all of the hinge remaining</i>	 <b>Part o.g.</b> <i>Approximately half or more of the gum intact</i>	 <b>Small part o.g.</b> <i>Approximately less than half of the gum intact</i>	 <b>No gum</b> <i>Only if issued with gum</i>

PRE-1890 ISSUES	<i>Pre-1890 stamps in these categories trade at a premium over Scott value</i>			Scott Value for “O.G.”		Scott “No Gum” Values thru No. 218
1890-1935 ISSUES	Scott “Never Hinged” Values for Nos. 219-771	Scott Value for “O.G.” (Actual value will be affected by the degree of hinging)		<b>Disturbed Original Gum:</b> Gum showing noticeable effects of humidity, climate or hinging over more than half of the gum. The significance of gum disturbance in valuing a stamp in any of the Original Gum categories depends on the degree of disturbance, the rarity and normal gum condition of the issue and other variables affecting quality. For example, stamps issued in tropical climates are expected to have some gum disturbance due to humidity, and such condition is not considered a negative factor in pricing.

## Covers

Minor nicks, short edge tears, flap tears and slight reduction at one side are normal conditions for 19th century envelopes. Folded letters should be expected to have at least one file fold. Light cleaning of covers and small mends along the edges are accepted forms of conservation. Unusual covers may have a common stamp with a slight crease or tiny tear. **These flaws exist in virtually all 19th century covers and are not always described. They are not grounds for return.**

## Catalogue Values and Estimates

Unless otherwise noted, the currently available *Scott Catalogue* values are quoted in dollars with a decimal point. Other catalogues are often used for foreign countries or specialized areas and are referred to by their common name: *Stanley Gibbons* (SG), *Dietz*, *American Air Mail Catalogue* (AAMC), *Michel*, *Zumstein*, *Facit*, etc. Estimates are indicated with an “E.” and reflect our conservative valuation in dollars. Reserves will never exceed the low end of the estimate range; they will sometimes exceed Scott Catalogue value for stamps in Extremely Fine condition.

Because of certain pricing inconsistencies in the Scott Catalogue—for example, blocks that have no gum, the absence of premiums for Mint N.H. items, etc.—we cannot guarantee the accuracy of values quoted for multiples, specialized items and collection lots. We generally try to be conservative, but buyers may not return a lot because of a discrepancy in catalogue value due to Scott pricing inconsistencies.

- 1254 E (1c) **Black, Large Die Essay on Old Ivory Paper, Franklin Carrier (LO1E-E1 — listed in Scott on white bond paper)**. Approximately 60 x 50mm with 57 x 50mm die sinkage, unfinished die with lathework impinging on white oval and framelines complete at top and bottom, vertical and horizontal layout lines especially distinct at right, rosettes at lower right, diagonal crease and tiny thin spot

ONE OF FOUR ORIGINAL 1851 TOPPAN CARPENTER DIE PROOFS IN BLACK, OF WHICH THREE ARE IN PRIVATE HANDS.

Students currently attribute the design of the Franklin Carrier to E. Pitcher. The vignette was engraved by Joseph Ives Pease after a marble bust by Caffieri. The frame is thought to have been the lathework of Asa Spencer, and the letter was by Henry Earle. At the time of production, Henry Saulnier was the siderographer.

The most recent article on Franklin Carrier die essays (Larry Lyons, *Penny Post*, Oct. 2003) describes three original large die essays in Black, including one in the Miller collection at The New York Public Library (ex Chase) and two in private hands (one ex Johnstone, sold in Siegel Sale 853, lot 2462, for \$9,500 hammer). Based on the measurements of the three described by Lyons, it is apparent that this is the fourth recorded example. The paper is Old Ivory, not white bond. It was part of the Falk Finkelburg "reserve" collection, and this could be the first time it has ever been offered at auction.

Ex Slater (pencil note on back "A. B. Slater"). Scott value for LO1-E1 on white bond paper is \$10,000.00 ..... E. 7,500-10,000

VERY FINE APPEARANCE. AN INCALCULABLY RARE ORIGINAL-GUM BOTTOM SHEET MARGIN PAIR OF THE 10-CENT 1847 ISSUE. WE ARE UNAWARE OF ANY OTHER UNUSED MULTIPLE OF THIS ISSUE WHICH HAS A SHEET MARGIN. A MAGNIFICENT EXHIBITION PIECE, OFFERED TO THE MARKET FOR THE FIRST TIME IN MANY DECADES.

To underscore the rarity of any original-gum multiple of the 10c 1847, there are only three unused blocks recorded (two with original gum), one of which is contained in the Hirzel collection at the Swiss PTT Museum. The original-gum block in the Zoellner sale, ex Green, Klein and Kapiloff, realized \$130,000 in 1998 (Siegel Sale 804, lot 15).

With 2007 P.F. certificate. Scott Catalogue only assigns a \$10,000 premium for the pair versus the price of two singles, a premium we feel is far too low given its rarity. ....

VERY FINE EXAMPLE OF THE 1851 IMPERFORATE ONE-CENT TYPE Ia, ONE OF THE RARITIES FURNISHED BY PLATE FOUR.

Stamps printed from Plate 4 were issued in April, May and briefly in June 1857 before perforations were introduced. The relatively small number of imperforate Plate 4 stamps issued during this period explains the rarity and desirability of any of the imperforate stamp types produced from this plate (Ia, Ic, II, III and IIIa). The extremely rare Type Ia, showing the full design at bottom, was furnished only by 18 of the 200 subjects on Plate 4 (the remaining two bottom-row positions were sub-type Ic).

- 1375 (★) **1c Blue, Ty. II, Chicago Perf 12½ (7 var).** Unused (no gum), fresh color, full perforations all around, small lightened stain spot at left and some ink on back barely shows thru

FINE APPEARING AND RARE. ONE OF ONLY TWO RECORDED UNUSED EXAMPLES OF THE ONE-CENT CHICAGO PERFORATION. ONE OF THE GREAT RARITIES OF THE ONE-CENT 1851-57 ISSUE.

The origin of the Chicago perforation was revealed in an article published by Jerome S. Wagshal in the *Chronicle* 130 (May 1986). To briefly summarize Mr. Wagshal's revelations, the inventor of the machine used to create the Chicago Perf stamps was Dr. Elijah W. Hadley, a Chicago dentist. He probably constructed the machine in 1854. Over a two-year period, beginning in November 1854, Dr. Hadley's device was offered for sale to the Post Office Department thru R. K. Swift, a prominent Chicago banker and businessman. The distinctive 12½ gauge Chicago Perf was applied to sheets of the 1c (Plates 1 Late and 2) and 3c 1851 Issue, the former being considerably rarer. According to the census of Chicago Perf items compiled by W. Wilson Hulme II (*Chronicle* 175, Aug. 1997), a total of 17 examples of the 1c Chicago Perf have been recorded, comprising 2 unused, 3 used on covers, 12 used off cover (including a strip of three).

1494 ★ **1c Blue, Ty. Ia (19).** Position 99R4, original gum, beautiful deep rich color in a distinctive intense Plate 4 shade, proof-like impression, perfs mostly clear of design showing a large part of the bottom plumes, faint corner creases at top right and bottom left (one ending in a minute tear), accompanying 1978 P.F. certificate notes "slightly soiled" which is nothing more than a small faint toned spot in the "U" of "U.S."

VERY FINE APPEARANCE. AN EXTREMELY RARE ORIGINAL-GUM EXAMPLE OF THE 1857 PERFORATED ONE-CENT TYPE IA.

Type Ia was produced by only 18 of the 20 bottom-row positions on Plate 4. Although Plate 4 was designed with sufficient space to accommodate perforations, the height of the top row and bottom row positions resulted in the perforations often cutting into the design at either top or bottom. For this reason, stamps from the bottom row of Plate 4 with perforations clear of the design are especially desirable, since the characteristics of the type is complete (Type Ia) or nearly complete (Type Ic) at bottom. The stamp offered here is one of the few well-centered examples with original gum, and its intense color and impression make it one of the most beautiful original-gum copies we have ever seen.

The Plate 1 Late sheets on hand in 1857 were perforated on the new equipment, but the spacing between subjects and Toppan Carpenter's generally poor perforating skills resulted in the majority being off center. VERY FINE FOR THIS EXTREMELY RARE USED MULTIPLE OF THE PERFORATED 3-CENT TYPE I 1857 ISSUE.

Until Toppan Carpenter made new 3c plates with wider spaces between stamps to accommodate the perforations, they simply perforated sheets printed from the earlier Type I plates, beginning in early 1857. As this rare used block demonstrates, the narrow (and irregular) spacing was not well-suited for applying perforations.

VERY FINE APPEARANCE. A RARE ORIGINAL-GUM EXAMPLE OF THE 5-CENT BUFF 1861 ISSUE.

Our sales during the past several years have contained a number of original-gum 1861-66 Issues, and we have made frequent reference to the rarity of these stamps in such choice condition. The 5c Brown Yellow and Buff are recognized as the rarest of 1861-66 Issue stamps in sound original-gum condition. Perhaps the only shade varieties rarer than the 5c Brown Yellow or Buff are the 3c Pigeon Blood Pink and 24c Blackish Violet (Scott 64a and 78c).

EXTREMELY FINE. A STUNNING ORIGINAL-GUM EXAMPLE OF THE 10-CENT 1861 ISSUE.  
The increased awareness of the rarity of 1847 to 1879 issues in superb original-gum condition has elevated many valuations for issues with modest Scott values. The 1861-66 issues are prime examples of this trend. This 10c 1861 has a Scott value of \$1,200.00, yet one would be severely challenged to locate more than a few examples with original gum, choice centering and rich color. .... 1,200.00

- 1720 **12c Black (69).** Perfectly centered with extra wide margins framing design on all sides, bold strike of **true green target cancel**

EXTREMELY FINE GEM. THE 12-CENT 1861 IS ONE OF THE MOST DIFFICULT DENOMINATIONS OF ANY ISSUE TO OBTAIN WITH A GREEN COLORED CANCEL.

Green cancels are generally very scarce, and most examples are found on 3c values of classic issues used from small post offices. Because the 12c was typically used to pay the U.S-British treaty rates on mail from large cities, examples cancelled in green are extremely rare. A collector looking for a green cancel on a 12c 1861 in *any* condition would experience great difficulty. A condition-conscious collector who asked a professional for a superb 12c 1861 with a green cancel would be considered slightly mad. The stamp offered here answers that call, and we must emphasize that all attempts to value this stamp — using Scott, SMQ, Siegel estimate, etc. — are pointless exercises. The auction will be the deciding event. Whatever the outcome, the winner of this lot will have a unique stamp, and the price paid will be soon forgotten.

Most blocks of 19th Century stamps containing superb stamps, have been broken to feed collector demand for singles. When this block appeared at auction in our 1995 Rarities sale, "J & J" saved the block from being broken, paying \$27,000 hammer against its \$14,300 catalogue value. It remains to be seen how much longer this block will remain intact.

EXTREMELY FINE APPEARANCE. THIS RARE USED PAIR OF THE 1908 5-CENT IMPERFORATE WAS REMOVED FROM THE FAMOUS COVER ADDRESSED TO ARTHUR M. TRAVERS AT THE THIRD ASSISTANT POSTMASTER GENERAL'S OFFICE. THE COVER WAS ALSO STAMPED WITH THE 1908 2-CENT SHIELD VERTICAL COIL, SCOTT 321.

The complete intact cover from which this pair was removed is illustrated in Martin A. Armstrong's *United Stated Coil Issues 1906-38* (page 26). The cover was mailed by Special Delivery on December 20, 1908, by an Indianapolis attorney named William Pirtle Herod to Arthur M. Travers in Washington D.C., who was promoted around this time to Acting Third Assistant Postmaster General after serving as Chief Clerk to A. L. Lawshe. In 1911 Travers earned philatelic notoriety when he was arrested in connection with the Steinmetz-Travers Bluish Paper scandal. His interest in stamps is reflected in a note on the cover from which this 5c 1908 Imperforate pair was removed, which reads: “*Note the 2 imperforate 5c stamps. Only 13000 of such were issued and less than 10000 were used for postage purposes. A.M.T. Dec 21, 1908.*” ..... 4,000.00

VERY FINE AND CHOICE EXAMPLE OF SCOTT 594. ONE OF THE RAREST TWENTIETH CENTURY STAMPS IN SOUND AND CENTERED CONDITION.

The 1c Green, Scott 594, is waste from a horizontal rotary printing used to make coils. At the beginning or end of a coil-stamp print run from the 170-subject rotary plates, some leading or trailing paper was produced that was too short for rolling into 500-stamp rolls. In 1919 the Bureau devised a plan to salvage this waste by perforating and cutting the sheets into panes. They were put through the 11-gauge flat-plate perforator in use at the time, giving the sheets full perforations on all sides. The existence of Scott 594 was not reported until four months after the final sheets were delivered, and the 1c Rotary Perf 11 was soon recognized as one of the rarest United States stamps.

Our recently completed exhaustive census of Scott 594, available at our website at: <http://www.siegelauctions.com/enc/census/594/594.htm>, contains 89 used singles, four used pairs and five covers (including one with a pair) for a total of 103 used stamps. Many have perforations either in on one or more side, or have faults.

FINE APPEARANCE. A RARE EXAMPLE OF THE 2-CENT HARDING ROTARY PERF 11, WITH THREE ENORMOUS MARGINS.

Our census of the 2c Harding Rotary Perf 11 as (published in our Zoellner sale catalogue and updated at our website at [www.siegelauctions.com/enc/census/613/613.htm](http://www.siegelauctions.com/enc/census/613/613.htm)) records 42 used singles (one faintly cancelled, if at all) and two used pairs. Of the singles, 25 are sound, but of these only six rate a grading of Very Fine or Extremely Fine.

The 2c Harding Rotary Perf 11 stamp was discovered in 1938 by Leslie Lewis of the New York firm, Stanley Gibbons Inc. Gary Griffith presents his hypothesis in *United States Stamps 1922-26* that rotary-printed sheets of 400 were first reduced to panes of 100 and then fed through the 11-gauge perforating machine normally used for flat plate sheets. This method distinguishes sheet-waste stamps — Scott 544, 596 and 613 — from the coil-waste stamps and explains the existence of a straight-edge on Scott 613.

## Live Internet Bidding at Siegel Auction Galleries

**Siegel Auction Galleries, in coordination with Stamp Auction Network, will broadcast our auctions live over the internet, allowing you to listen to the auction in progress.**

Bidders who have pre-registered for Live Internet Bidding will also be able to place bids over the internet, as if bidding in the saleroom. In order to bid by internet, you must be an approved, registered bidder with Stamp Auction Network and Siegel Auction Galleries.

- ❑ If you have never registered as a bidder at Stamp Auction Network, then please go to [www.siegelauctions.com/IB2.htm](http://www.siegelauctions.com/IB2.htm) and click on “Register” at the top of the page. Please check the box for Robert A. Siegel Auction Galleries (under “R”) and submit the form. If you have never bid with our firm, please provide trade references whom we may contact to have your account approved (please do not use family members or credit cards as references).
- ❑ If you have registered previously at Stamp Auction Network, but not specifically for our firm, please go to [www.siegelauctions.com/IB2.htm](http://www.siegelauctions.com/IB2.htm) and click on “Update Registration” at the top of the page. Your information at Stamp Auction Network will be sent to us for approval. You may be asked to provide additional references before being approved for internet bidding.

The audio portion is only available to PC users using Internet Explorer. For the audio portion, you will be asked to install a piece of software (ActiveX control) to make it work.

Bidders must log in at Stamp Auction Network to participate. Once logged in, please locate the page for the current Siegel auction.

At the top of the auction's home page there are two links:

- One link allows anyone to listen to the public auction broadcast.
- The second link permits registered bidders to join the public auction in progress.

Please remember that to participate in the auction, you must be pre-registered at Stamp Auction Network and approved by Siegel Auction Galleries as a bidder. Qualified bidders will see a page like the one illustrated above and have a valid paddle number assignment.

## Shipping and Transit Insurance

We will be pleased to arrange for shipping and transit insurance for purchases in this sale (except those described as “floor sale only”). To expedite billing and delivery of lots to hundreds of buyers per sale, we use standard charges for postage and insurance, based on the invoiced total and mailing requirements (see schedule). The standard charges are sometimes slightly more or less than the actual postage, but we do not include any fees for our labor or packing costs. Therefore, we ask all buyers to remit the prescribed amount for shipping charges.

Transit insurance is provided in all cases, except when the buyer has furnished us with proof that insurance coverage is effective under another policy. Proof, in such cases, will be accepted in the form of a written certificate from the insurance carrier.

You are responsible for insurance charges, which will be added to your invoice. This coverage is provided for our mutual protection against theft or loss in transit.

## REVISED Bidding Increments

The auctioneer may regulate the bidding at his discretion. However, to assist absentee bidders in establishing their maximum bid for each lot, the increments shown at right will be used in most cases. We recommend that written bids conform to these increments (those which do not will be reduced to the next level).
