POSTAL CARDS

Values are for unused cards as sold by the Post Office, without printed or written address or message, and used cards with Post Office cancellation, when current. Used cards with postage added to meet higher rates sell for less. Used cards for international rates are for proper usage. Those used domestically sell for less.

The "Preprinted" values are for unused cards with printed or written address or message.

Starting with No. UX21, all postal cards have been printed by the Government Printing Office.

Nos. UX1-UX48 are typographed; others are lithographed (offset) unless otherwise stated.

Numerous printing varieties exist. Varieties of surcharged cards include (a) inverted surcharge at lower left, (b) double surcharge, one inverted at lower left, (c) surcharge in other abnormal positions, including back of card. Such surcharge varieties command a premium.

Colored cancellations sell for more than black in some instances. **All values are for entire cards.**

As of Jan. 1, 1999, postal cards were sold individually for 1c over face value.

See Computer Vended Postage section for "Postal Buddy" cards.
