

POSTAGE 1922-1925 ISSUE

Perforated 11, Flat Plate, Unwatermarked

After Harding's election in 1921 Will Hays, chairman of the Republican National Committee, was appointed Postmaster General. The Washington-Franklin series, which had intentionally been produced with uniform designs since 1908, came to an end with the 1922 Issue.

Stamps in 25 denominations were eventually issued, including some depicting items of national interest such

as the Golden Gate, Lincoln Memorial and the Capitol. They were released over time rather than all at once, most on dates of historical significance relating to their subject.

Like the Washington-Franklin Issue, the 1922-25 Issue provides an array of different perforating and printing varieties, many of which relate to difficulties in production.

1929 Kans. Overprints

Perforated 11 x 10½, Rotary Press, Unwatermarked

The Kansas-Nebraska Overprints were an attempt to thwart thieves who stole stamps in one state and sold them in other parts of the country.

The Post Office tried overprinting the letters Kans. on stamps for sale in Kansas and Nebr. on stamps to be

sold in Nebraska. They used the rotary press stamps currently in use (Scott 632-642).

Unfortunately, many postal workers were not aware of these overprints and would not accept them as valid postage, so the experiment was discontinued.
