New Hampshire issued the 1992 10th Anniversary Edition without giving notice to the public. Beginning with this year, the state assumed publishing responsibility.

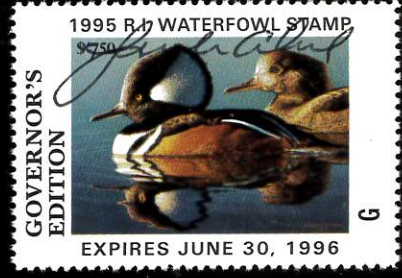

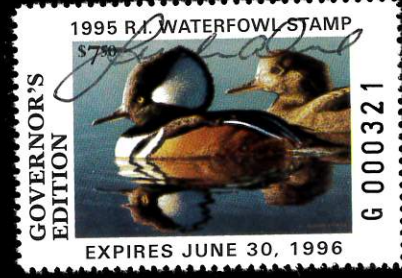

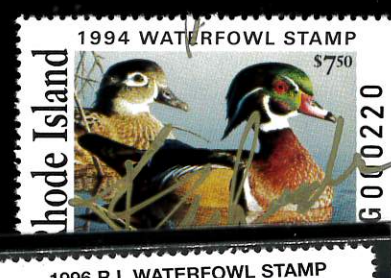

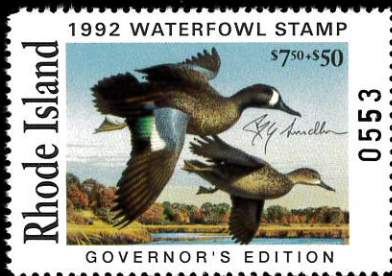

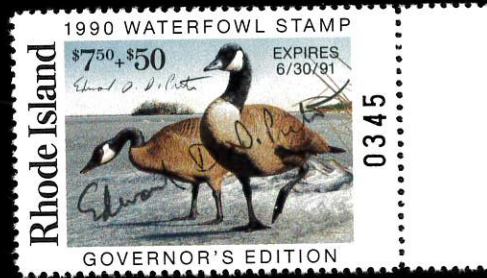

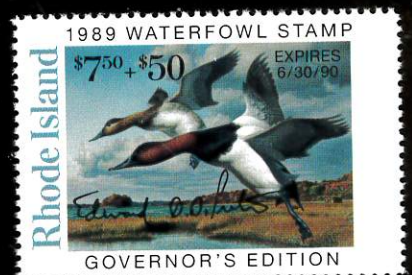

1995 - 1994 Rhode Island Governor Edition  
Without Serial Number--Signed by the Governor  
Only 20 exist--Prepared by the state in  
the event stamps damaged in original run

In 1992, Utah Issued 390 Governor Edition Stamps, All Purportedly, Hand-Signed by Governor Norm Bangerter. The Letter "G" Precedes All Serial Numbers on the Governor's Edition Stamps Only.

Ninety-Five of the 390 Stamps were Assigned to Prints and Not Available to Collectors. Of the Remaining 295 Stamps, Four were Detected as being "Unsigned" or "Mint", Apparently Overlooked by Governor Bangerter. The Four Stamp Serial Numbers were G00272, 78, 84 and 90, All from Horizontal Row Two on Sheet # 10. \$1050-
