

Length, 1402 ft.

MACHINERY HALL.

Width, 360 ft.

"The Machinery Hall is 1402 feet long and 360 feet wide, having two main avenues 1360 feet long, with numerous side and cross avenues. The visitor will here see the machinery of all nations in actual operation, the sample products of which can be purchased, and removed if desired. Among these products will be Persian and Turkish rugs, carpets, cloths, pins, needles, rivets, ninges, confectionery, etc. The annex for hydraulic machines contains a tank 144 feet long, 60 feet wide, with a depth of water of 8 feet. In connection with this, hydraulic machinery will be exhibited in full operation. At the south end of this tank will be a waterfall 35 feet high by 40 feet wide, supplied from the tank by the pumps upon exhibition."

Length, 152 ft.

JUDGES' HALL.

Width, 115 ft.

"Erected at a cost of above \$30,000, and located between and about 150 feet in the rear of the two principal Exhibition buildings. It is 115 feet by 152 feet. Its principal hall for the assembly of the Judges is 60 feet by 80 feet, and 43 feet high, and it has suitably-located rooms for the use of committees."

JAPANESE DWELLING.

Japanese Dwelling

"Designed to illustrate Japanese architectural work, and the interior arrangement of their dwellings. Japanese wares will be on exhibition, and for sale, in a bazaar, specially erected for the purpose."

Length, 365 ft.

ART GALLERY.

Width, 210 ft.

Art Gallery

"The Art Gallery, also known as Memorial Hall, is a thoroughly fire-proof building of granite, glass, and iron, erected at a cost of \$1,500,000, and designed to remain as a permanent memorial of the nation's first Centennial Anniversary. It stands on a terrace six feet above the general level of the plateau, and 122 feet above the surface of the Schuylkill River, which it overlooks. It is 365 feet long and 210 feet wide, surmounted by a central dome. Its interior arrangement is admirably adapted for the display of statuary and paintings."

Length, 383 ft.

HORTICULTURAL HALL.

Width, 193 ft.

"An allotment of forty acres has been made for the display of tropical plants, and of every variety of garden decoration, the Conservatory known as Horticultural Hall, a handsome building 383 feet long and 193 feet wide, constructed of stone, brick, glass and iron, occupying the center. The centre of the Conservatory is adorned by an ornate marble fountain, executed by Miss Foley, an American artist in Rome, and eight ornamental fountains adorn its angles. On the north and south sides are four forcing-houses for propagating young plants. At the centre of the east and west ends are located restaurants, reception-rooms, offices, etc. Ornamental stairways lead from the vestibule to the galleries, from which a fine view of the interior of the building can be obtained. These galleries communicate with the promenade around the whole of the outside of the building, from which a magnificent view of the Schuylkill River and the entire grounds can be had, and which will be one of the attractive features of the exhibition."

Length, 820 ft.

AGRICULTURAL BUILDING.

Width, 540 ft.

"The Agricultural Building is 826 feet long and 540 feet wide. It has a main central avenue 70 feet wide and 826 feet long, with cross avenues and aisles. The articles on exhibition in this building will be arranged by classes, and not by countries. All articles of the same class from all countries will be together. A very interesting comparison will result, as twenty foreign countries and all of the States will exhibit. Among the most extensive and interesting exhibits will be the agricultural machines in active operation, comprising everything used on the farm or plantation, in tillage, harvesting, or preparation for market; manufactured foods of all kinds, and all varieties of fish, with the improved appliances for fish-culture."

Length, 1880 ft.

MAIN EXHIBITION BUILDING.

Width, 464 ft.

Main Exhibition Building

"The Main Exhibition Building is 1880 feet by 464 feet. Its central span, in which the grand avenue is located, is 1832 feet by 120 feet, being the longest of this width that has ever been introduced into an exhibition building."

Length, 400 ft.

U. S. EXHIBITION BUILDING.

Width, 300 ft.

U.S. Exhibition Building

"This is the most important building within the inclosure, next to the principal Exhibition buildings. It was erected by the United States Government at a cost of \$60,000, and is designed for the exhibits of the various departments of the General Government and the Smithsonian Institute. It covers about two acres, and contains one of the most interesting collections that the visitor will find on the grounds, illustrating the functions and administrative faculties of the Government in time of peace, and its resources as a war power."
