LCS120

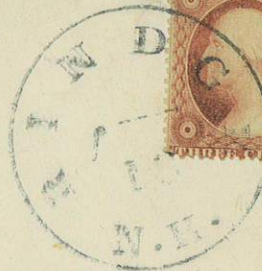

Via Panama

This scarce trans-continental westbound cover has perfect strike of NY Ocean Mail cancel on Scott #35 with wide margins. The "Oct 5 cancellation" is probably circa 1860 and was delivered to Nevada City, CA. This cover is extremely well preserved, especially for a westbound pre-Civil War cover to California that had to be carried across the Isthmus of Panama, probably on mule back. West bound covers are far scarcer than eastbound covers.
